NALC sets Change of Command for June 29

The Naval Ammunition Logistics Center will hold a Change of Command ceremony Friday, June 29, at 10 a.m. in the Special Events Forum, building 14.

During the ceremony, CAPT Allan A. Banghart will be relieved of command by CAPT Matthew Culbertson.

The keynote speaker will be RADM Keith W. Lippert, Commander, Naval Supply Systems Command.

Participants will include a color guard detail from the Navy-Marine Corps Reserve Center, Harrisburg;

CDR Robert Sassaman, Chaplain Corps, United States Naval Reserve; and soloist Rufus Geesaman from the Naval Inventory Control Point.

Banghart leaves NALC after four years as Commanding Officer and will retire with 30 years' service.

Culbertson comes to NALC after serving as Commanding Officer, Fleet and Industrial Supply Center, Jacksonville, Fla.

For further information, contact Barbara Wekluk at Ext. 2104.

Washington, D.C., May 24...

Gordon R. England, right, is sworn in by David O. Cooke, Director of Administration and Management for Office of the Secretary of Defense. England was administered the oath of office as the 72nd Secretary of the Navy at a ceremony in the Secretary's office in the Pentagon. U.S. Navy photo by Chief Photographer's Mate Dolores L. Parlato. See story.

England sworn in as SECNAV

By the Navy Wire Service

Washington, D.C. — Gordon R. England officially became the 72nd Secretary of the Navy May 24 after he took the oath of office in the Pentagon following his Senate confirmation.

Nominated by President Bush on April 24, England brings more than 30 years of experience as a leader in the defense and technology industries to his new duties as leader of the Navy/Marine Corps Team.

Prior to his nomination as Secretary of the Navy, England served as executive vice president of General Dynamics since 1997.

England outlined four key areas that he would address

as Navy Secretary. "My agenda is to substantially improve our combat capability, enrich the lives of our people, swiftly incorporate technology across our total operation, and dramatically improve our business practices," England said in hearings before the Senate Armed Service Committee chaired by Sen. John Warner of Virginia, himself a former Navy Secretary.

"Each of these goals is inter-related, so implementation will be systematic rather than piecemeal. These efforts will be difficult and challenging and the support of this committee will be essential," England said.

Flag Day -- June 14

Navy Lodge Lemoore gives award-winning service

NEXCOM Public Affairs - Any guest who has stayed at the Lemoore, Calif., Navy Lodge can tell you he or she received outstanding service. Now, the lodge has the awards to prove it. Navy Lodge Lemoore has won the Navy Lodge Program's 2000 Hospitality Award in the large category. It also won the 2000 Worldwide Navy Lodge Associate of the Year, Cora Valdeabella, lead desk clerk, and the 2000 Navy Lodge Manager of the Year, Sam Cope.

"My associates do an incredible job of making sure our guests have a pleasant stay," said Cope. "The awards reflect the dedication of my staff."

Cope, who has been with the Navy Lodge System 30 years, nominated Valdeabella for the Navy Lodge Associate of the Year award. Valdeabella, who has been with the Navy Lodge System for 17 years, was surprised when she was flown to Chicago to receive the award at the annual Navy Lodge Worldwide Awards Ceremony.

For more information, contact Kristine Sturkie at kristine_sturkie@nexnet.navy.mil.

New Navy lodge offers modern conveniences

NEXCOM Public Affairs - Guests staying at Navy Lodge Little Creek, Va., have always had excellent service, a clean comfortable room, and a convenient location near area attractions. Now guests will find it even bigger and better with the grand opening of the new two-story Navy Lodge that took place March 26. Located on the original site of Seal Team 2 and the Seal Underwater Demolition Team, the new Navy Lodge is more modern than its predecessor, which was built in 1971.

"Probably the biggest change our guests will notice is the new Navy Lodge has interior hallways, which means the rooms don't open to the outside," said Margaret Massie, Little Creek's Navy Lodge manager. "I think our guests will feel more comfortable entering their rooms through the lodge's hallway rather than from the outside."

The new Navy Lodge has 100 rooms, including four rooms for people with handicaps, 16 business class rooms, which feature one queen-sized bed, a "living room" area with a desk, and 80 standard rooms, all of which have two queen-sized beds. Each room has a kitchenette, complete with stove, microwave, refrigerator, utensils, and cookware as well as an iron, ironing board, hair dryer, and coffee maker. The Navy Lodge itself has a guest laundry facility, vending machines, playground, video rental service, and complimentary coffee in the lobby every day. To make guests feel like they're at home, complimentary newspapers are available Monday through Friday and local phone

SMARTWebMove allows Sailors to arrange household goods moves online

Navy members and their families in the San Diego, Calif., area may now arrange their household goods move over the Internet. SMARTWebMove is a user-friendly, Web-based program available to Sailors 24-hours a day, seven days a week from home, work, on board ship, or anywhere they have Internet access. It is the first interactive program in the Department of Defense to provide move application forms and tailored entitlements counseling online.

As SMARTWebMove expands, other origins and destinations will be added. Shipments originating at the Fleet and Industrial Supply Centers at Jacksonville, Fla.; Norfolk, Va.; Puget Sound, Wash.; Naval Air Stations at Fort Worth and Corpus Christi, Texas; and the Naval Education Training Center, Newport R.I., will come online in fiscal year 2002. The Naval Supply Systems Command sponsors the program.

SMARTWebMove is designed to service routine moves and simple entitlements based on Permanent Change of Station (PCS) orders. Currently it serves active-duty Sailors and their families who have household goods located in and PCS orders from the San Diego area to a new duty station or homeport within the Continental United States (CONUS).

Extra pickups from locations in the general area of the primary pickup ad-

dress may also be arranged. However, pickups from other locations, such as a prior duty station, involve complex arrangements that require a visit to the Personal Property Office (PPO). Home of Record moves are not being served at this time.

SMARTWebMove is easy to use. Eligible users simply fill out an online questionnaire to receive a report of entitlements available to them. The system enables members to fill out all necessary forms, arrange the move, and submit the forms to the FISC San Diego PPO via the Internet.

To complete the online application, service members need their PCS orders and Proof of Dependents (Page 2 from their service records). These documents may be sent to the PPO as e-mail attachments or faxed for faster service. They may also be mailed or hand carried to the PPO. If the applicant is not the service member (i.e. if a spouse or other agent is arranging the move), an original Power of Attorney with the agent's name listed is required by law and must be mailed to the PPO.

SMARTWebMove information is protected and is stored on a secure server. Personal information is encrypted as it is being transmitted. Each user's account is password protected so that only individual users can access their records.

To access SMARTWebMove go to www.smartwebmove.navsup.navy.mil.

Naval Supply Systems Command

Executive Potential Program grad...

Robert Bacon receives a certificate after graduating from the Executive Potential Program March 30. Presenting the certificate from the George Washington University School of Business and Public Management to him is RADM Keith W. Lippert, the Commander of the Naval Supply Systems Command, at the April Open Forum in the command.

2 receive master's certificates

Pam Beward and Rich McIntire of the Naval Supply Systems Command recently received master's certificates in project management in a presentation conducted by RADM Keith W. Lippert, the Commander of the Naval Supply Systems Command.

The certificates from the George Washington University School of Business and Public Management were presented to them during the command's April 25 Open Forum.

Navy delays DD 21 source selection decision

By OASD Public Affairs

WASHINGTON (Navy Wire Service) — The Navy announced May 31 that it is delaying source selection for the DD 21 program to take advantage of the results of the ongoing reviews being conducted within the Department of Defense.

"This is a significant program approaching a significant milestone," said Under Secretary of the Navy Robert B. Pirie Jr. "As we continue to look at how the Navy will be shaped in the 21st Century by participating in the ongoing strategic reviews, it is only prudent to ensure DD 21 reflects the results of those reviews."

Those reviews include the Secretary of Defense's defense strategy review, the Quadrennial Defense Review, and a recently chartered future shipbuilding review being led by the Under Secretary of Defense (acquisition, technology and logistics).

The two competing DD 21 teams will continue their system development efforts under the Fiscal Year 2001 Phase II contract. This work will focus on continued development of critical DD 21 technologies and reducing program risk.

The "Blue Team" is led by Bath Iron Works with Lockheed Martin Government Electronic Systems, Moorestown, N.J., and the "Gold Team" is led by Ingalls Shipbuilding, with Raytheon Systems Co., Falls Church, Va.

Broadcasts feature Navy

The following are national broadcasts featuring the Navy:

Saturday, June 9, at 8 p.m., Discovery Channel: In Harm's Way: Navy SEALs.

Monday, June 11, at 8 p.m., History Channel: This Week in History: The flag raising on Iwo Jima.

DITSCAP Awareness

Information technology processes to be examined

Mechanicsburg Base Information Systems Program Managers (and company) are asked to mark their calendars for one of two upcoming awareness sessions.

On June 12 in the building 309 Auditorium from 1:30 – 2:30 p.m., information on the DoD Information Technology Security Certification and Accreditation Process (DITSCAP) will be presented.

An overview of the process, NMCI impact, a program

manager's perspective, and info about resources will be presented.

"Bring your key support personnel," a spokesperson states. "This will be a great opportunity to acquire assistance and answers to your questions."

This same information will be provided June 14 from 1:30 – 2:30 p.m. in the building 309 Auditorium.

NAVSUP point of contact is Charlene F. Tallman, SUP 63D, Ext. 1432.

NAVSUP wire service continued

calls are free.

"The rooms are larger in the new Navy Lodge as compared to the old lodge," said Massie. "Also, each room has a computer hook-up. That's definitely a modern convenience that has emerged since our old lodge was built."

The new Navy Lodge is within walking distance of the Navy Exchange Country Store, commissary, Naval Amphibious Base credit union and tennis courts, and is a short distance away from the main Navy Exchange and a fast-food restaurant. Guests at the lodge can enjoy some of the area's main attractions, including the Virginia Beach oceanfront, the Virginia Marine Science Museum, and Nauticus, which features the USS *Wisconsin* battleship. The world's largest Navy base, located in Norfolk, is also a short drive away.

The nearly \$6 million investment in the new lodge is being paid for by the Navy Lodge Program's profits. The program is self-sufficient, as it does not receive any taxpayer dollars.

"The money spent at a Navy Lodge by our guests is used to build a new or renovate an older lodge," said Michael Bockelman, director of the Navy Lodge Program.

The mission of the program is to provide reasonably priced, quality lodging facilities for its guests. Active duty military, retirees, Reservists, and their families are authorized to stay in Navy Lodges while on permanent change of station orders, TDY orders, or while traveling. The Navy Lodge is also a great place for friends and families to stay when visiting the area, especially during the holidays. "With 100 rooms, the Navy Lodge can handle anything from one guest to an entire family reunion," said Bockelman.

To make a reservation or to receive a free Navy Lodge directory, call 1-800-NAVY-INN. Information is also available at www.navy-nex.com/NavyLodge.

Navy lodges awarded for their spirit of hospitality

NEXCOM Public Affairs - Each year, the Navy Exchange Service Command's (NEXCOM) Navy Lodge Program honors those lodges that best demonstrate "The Spirit of Hospitality" with superior guest service with the Hospitality Award. Based on customer comments, the 2000 Hospitality Award winners are:

Small Category — Naval Submarine Base, Kings Bay, Ga., 5 - 30 units, Navy Lodge Manager: Linda Bird

Medium Category — Naval Air Station, Sigonella, Italy, 31 - 58 units, Navy Lodge Manager: Carol Schlabaugh

Large Category — Naval Air Station, Lemoore, Calif., 59 units and over, Navy Lodge Manager: Sam Cope

"These lodges exemplify what good guest service is," said Michael Bockelman, director of the Navy Lodge Program. "More importantly, these lodges were chosen by their guests as showing superior guest service, through responses to our Guest Comment Card Program. I commend each Navy Lodge associate and manager for a job well done."

Navy Lodge Sigonella, Italy, won the highest hospitality award, the Outstanding Service Courtesy Award Recipient. "Navy Lodge Sigonella had the highest guest service ranking on guest comment cards among the three Hospitality Award winners," said Bockelman.

News from the DECC

DECC Mechanicsburg welcomes DECC Oklahoma City interns Melissa Jordan and Rodger Allen to the Enterprise Operations Division for a month-long rotational assignment. Also, Rob Budde has recently joined DECC as

a co-op employee from Shippensburg University, where he is an information management and analysis major.

If you have news for this column, please send an e-mail to Barb Quinn, DECC WE2.

DECC Customer conference coming

Defense Enterprise Computing Center Mechanicsburg is sponsoring its sixth annual Customer Conference at the Hershey Lodge and Convention Center from July 31 through Aug. 2.

Featured speakers throughout the three days will be Lieutenant General Harry D. Raduege Jr., Director, Defense Information Systems Agency (DISA); John Garing, Director, DISA Western Hemisphere; Brigadier General James H. Pillsbury, Commander, Defense Distribution Center, New Cumberland; RDML William Maguire, Vice Commander, NAVSUP (also, Deputy Commander of the DoN eBusiness Operations Office); and Dawn C. Meyerriecks, Chief Technology Officer, DISA.

The three days of meetings are filled with a variety of topics that affect nearly every one of DECC's customers. These topics include MVS Line of Business (LOB),

Storage LOB, Server LOB, DJMS Optimization Plan, Tandem Consolidations, and more.

All customers to whom DECC provides service, or are serviced by DECC detachments at Chambersburg, Jacksonville, Norfolk, Puget Sound, or San Diego, have been invited to attend. The agenda and registration form are accessible on the World Wide Web at <http://www.westhem.disa.mil/~WEP/conference/agenda1.html>.

Preregistration for the conference is required. Fax the completed registration form to DECC Mechanicsburg Customer Service Branch at Ext. 4785.

Local bus service from the base to the conference will be provided. The bus schedule can be found at the above Web site.

For additional information contact Terry Quinn, Ext. 2797, or Ruth Dell, Ext. 5025.

All along the NAVICP line

Sympathy is extended to Ron Boughter of the NAVICP Business Office on the death of his daughter, Barbarella, following a lengthy illness.

Sympathy is extended to Ron Gabriel of the Supply

Chain Operations Research Department, Code M0413, on the passing of his mother-in-law.

Navy Marine Corps Relief

Car gets new owner...

Bob Powers, fourth from left, of the Naval Inventory Control Point receives the key to the grand-prize vehicle he won in the recent record-setting Navy-Marine Corps Relief Fund Drive on the installation. On hand for the presentation are members of the Navy-Marine Corps Relief Fund Drive

committee, including LCDR Mike Taylor, second from right, who coordinated the drive, and representatives of the local car dealership, which provided the winner with a choice of vehicles.

Fleet Material Support Office

Congratulations ...

CAPT Michael Roesner, Fleet Material Support Office's Commanding Office, presents a plaque to FMSO's Secretary of the Year Linda Hivner for her contributions and service to the command. See story.

CFC Council provides volunteer opportunity

The CFC Council has planned an organized volunteer activity this month.

Organized volunteer activities are a great opportunity to see how local charitable Combined Federal Campaign organizations help the people within local communities.

On June 23, the CFC Council will sponsor a volunteer activity for the YWCA in Harrisburg. Volunteers will mulch

the flower beds and clean the furniture in the Childcare Center.

"We are looking for eight to 10 volunteers to help contribute to this initiative," planners report. "We will meet at the YWCA on Saturday, June 23, at 8 a.m. and work until noon."

If you are interested in participating, please contact Jan Derk, Ext. 7402.

FMSO names Secretary of Year

A ceremony to recognize and honor Fleet Material Support Office's professional secretaries for their contributions to the workplace and to select FMSO's Professional Secretary of the Year was recently held at the Officers' Club.

This year's nominees were Joyce Stinchcomb of Code 99 (TRIDENT System Support Department), Jo Beth Rhen of

Code 93 (Navy Logistics Department), and Linda Hivner of Code 98 (ERP Implementation Department).

Hivner was selected as FMSO's Secretary of the Year for 2001 and was presented with a FMSO certificate and plaque.

All nominees received a basket of flowers and an extra mile coupon.

CAD/PAD Team selected for Packard Award, NALC employees share in prestigious award

By LCDR Mike Taylor and Henry Rebinski

The Department of Defense has selected the Cartridge Actuated Devices/Propulsion Actuated Devices (CAD/PAD) Program's Supply Process Reengineering Team to receive the David Packard Excellence in Acquisition Award. Henry Rebinski and Fred Young of the Naval Ammunition Logistics Center, the CAD/PAD Inventory Management team, will receive this distinguished award for their role in this initiative.

The award will be presented Sept. 10 at DoD's Acquisition Reform Ceremony in the Pentagon. The award honors the late David Packard, founder and chairman of the

Hewlett-Packard Company, former Deputy Secretary of Defense under President Nixon, and chairman of a blue ribbon defense commission (the "Packard Commission") under President Reagan. The Packard Award recognizes teams that have demonstrated great innovation and results in acquisition.

The CAD/PAD Team was selected for reengineering the Navy and Marine Corps process for ordering, processing, shipping, and receiving critical explosive components. CAD/PADs are installed in escape, emergency, and recovery systems throughout naval aviation. These components are service life driven and must function perfectly every time to

facilitate aircrew ejection, equipment operation or recovery, and perform other functions during in-flight emergencies. The Navy and Marine Corps keep 175,000 CAD/PADs in inventory supporting 45,000 fleet maintenance transactions annually.

CAPT Allan Banghart, NALC's Commanding Officer, stated that this award highlights the transition of a paper-laden, labor intensive, long lead-time requisition process to a new streamlined logistics process-driven organization. Problems that have caused excessive retail (local) stocks and critical service life extensions to keep aircraft flying and equipment operational have been eliminated. For instance,

lead times have been shortened from as much as four months to just 14 days or less. Inventories were subsequently reduced worldwide and fleet readiness has been impacted dramatically by preventing maintenance work stoppages. These efforts have also assisted in more accurate procurement requirements and have streamlined logistical support functions at the stock points.

The re-engineering team continues to prototype improvements to the process for ordering outside the continental United States. They are also working on Web-ordering techniques to bring CAD/PAD resupply into the 21st century. As the CAD/PAD reengineering team demonstrated, with vision, resources, the right approach, dedication, teamwork, and perseverance, radical change is possible.

New destroyer to be named *James E. Williams*

By MCPON Public Affairs

DARLINGTON, S.C. (Navy Wire Service) — The Navy's most decorated Sailor is getting a ship named in his honor. The 45th *Arleigh Burke*-class destroyer (DDG 95) will be named *James E. Williams* for Medal of Honor recipient BM1 James Elliot Williams, according to an announcement by MCPON (SW/AW/SS) Jim Herdt May 26 in Darlington, S.C.

Former Secretary of the Navy Richard Danzig, who asked the MCPON to make the announcement on his behalf, chose the ship's name.

During the announcement ceremony held in William's hometown of Darlington, S.C., the MCPON explained the significance of ship naming.

"The Navy has a unique way of honoring its heroes, history and ideals," Herdt said. "By naming our ships, they become more than just another

piece of hardware. They take on a life and spirit all their own."

"For more than a hundred years, nearly all U.S. Navy destroyers have been named for American naval leaders and heroes," Herdt continued. "This is certainly true for the destroyer we are naming today. Until now, this ship has been known simply by its hull number: DDG 95. However, as of this moment, this great ship in the making will take on the name of a man who truly meets the definition of an American naval leader and hero, James E. Williams."

South Carolina Senator Ernest F. Hollings, who was unable to attend the ceremony, wrote, "This grand gesture pales in comparison to the man himself, a Sailor and American patriot of the highest caliber. Elliott Williams served the U.S. Navy with every ounce of his strength, character and intel-

lect and his heroism in Vietnam rightfully earned him a place in history."

Williams received the Medal of Honor for his service on the Mekong River in Vietnam on Oct. 31, 1966, while serving as boat captain and patrol officer aboard River Patrol Boat (PBR) 105.

His boat and another PBR were on patrol looking for contraband when someone spotted two fast speedboats crossing ahead. The speedboats split up, with Williams pursuing and sinking one.

He then turned his boat around and went after the second, which hid in an 8-foot canal in front of a rice paddy. He knew his boat wouldn't fit, but after checking a map, he found he could pass through a wider canal and intercept the enemy craft. However, after exiting, Williams and his crew found themselves under heavy fire

from enemy boats and shore batteries. Williams and his crew shot back, waging a battle against multiple enemy boats. U.S. helicopter support finally arrived, and PBR 105 moved to yet another enemy boat staging area. After a fierce battle and more than three hours of fighting, Williams' patrol had accounted for the destruction or loss of 65 enemy boats and more than 1,000 enemy troops. Williams retired from the Navy in 1967 and received the Medal of Honor in May 1968.

Arleigh Burke-class destroyers are equipped to operate with battle groups in high-threat environments and conduct a variety of missions, from peacetime presence and crisis management to sea control and power projection in support of national military strategy. More info about *Arleigh Burke*-class destroyers is available at www.navy.mil under "fact file."

Illnesses prompt bone marrow drive

The illnesses of two federal workers with installation connections is currently calling attention to efforts to locate people who are willing to be bone marrow donors.

Rose Manoni of the Defense Distribution Depot Susquehanna and the wife of Gary Manoni of the Naval Inventory Control Point is seriously ill. So too is Jim Brandt of the Public Works Center here.

A bone marrow drive, where potential bone marrow donors will be tested, will take place at the building 14 Special Events Forum June 20 from 9 a.m. to 3 p.m.

Donors must be between the

ages of 18 and 60 and in good health.

Although it is extremely unlikely that compatible donors will be found for either Manoni or Brandt at this drive, volunteers will have their bone marrow typed and placed on the National Bone Marrow Registry so that other patients like them can some day find compatible donors.

This drive is being coordinated by the Naval Supply Systems Command, the Naval Support Activity, the Branch Medical Clinic, and the Defense Distribution Center.

The DDC will hold a like drive June 21 at New Cumberland.

ITT offers help with Father's Day

The Information, Tickets and Tours Office can help you with gifts for Father's Day, weddings, graduations, or other occasions.

Interested employees are invited to stop by the office to check out its 23 gift albums with gifts ranging in value from \$20 to \$500.

You can give your recipient the gift of choice from an array of products – from men's and women's fashions to furniture to garden supplies.

Whitaker Center

The ITT is offering savings on admission to the Whitaker Center's Science Center and IMAX Theater. The facility is located at 222 Market Street in Harrisburg.

An ITT combination ticket for the Science Center and IMAX costs \$9 for an adult and \$7.25 for ages 3-12. Gate price is \$9.75 for an adult and \$7.50 for ages 3-12.

Or save on IMAX only tickets. An IMAX adult ticket is \$6.50 and a ticket for ages 3-12 is \$4.25. Gate price is \$6.50 for an adult and \$5 for a child.

Six Flags

Save on admission to Six Flags America in Largo, Md., through the ITT.

An adult ticket costs \$19.75, a savings of \$18.74 off the gate price of \$38.49.

A child (age 4 to 48 inches) ticket can be purchased at the gate for \$19.24.

Six Flags features more than 100 rides, shows, and attractions plus a water park.

Office hours

The ITT Office in building 310 is open workdays. Hours are 10 a.m. to 1 p.m. Tuesdays, Wednesdays and Thursdays.

Its hours on Mondays and Fridays are 11:30 a.m. to 1 p.m.

This week in naval history

Navy News Service — June 4, 1942 - The Battle of Midway begins, the turning point in the war against Japan. The four Japanese carriers that launched planes against Pearl Harbor are sunk. Other Japanese losses included one heavy cruiser and 253 aircraft. American forces lost the destroyer USS *Hammann* (DD 412) and the carrier USS *Yorktown* (CV 5) in addition to 147 aircraft.

June 5, 1917: The first naval aviation unit reaches Europe during World War I to reinforce the French air force. The 1st Aeronautical Detachment arrives at the French ports of Bordeaux and St. Nazaire aboard the cargo transports USS *Jupiter* and USS *Neptune*.

June 6, 1944: The defeat of Germany is assured during Operation *Overlord/Neptune*, the largest-ever amphibious assault. Nearly 2,500 U.S. Navy ships and small craft are involved in the D-Day Invasion.

June 7, 1898: During the Spanish-American War in 1898, the cruiser *Marblehead* and auxiliary cruiser *Yankee* test the defenses of Guantanamo Bay, Cuba, by silencing a Spanish battery and driving the gunboat Sandoval into the inner harbor. RADM William T. Sampson seizes the bay for use as a coaling station and advanced base.

June 8, 1830: The sloop-of-war *Vincennes* becomes the first U.S. warship to circle the globe.

June 9, 1959: USS *George Washington* (SSBN 598), the first nuclear-powered fleet ballistic missile submarine, is launched at Groton, Conn.
